With a strong focus on digital transformation brought about by disruptive technologies, including Cloud Computing, Artificial Intelligence (AI), Internet of Things (IoT), Big Data and more, an IT magazine - Wire19, attracts key technology decision makers- such as CIOs, CEOs, enterprise architects, infrastructure specialists and more, across a wide range of verticals.
Digital transformation brought forth by the cloud computing and advanced technologies like Artificial Intelligence (AI), Machine Learning (ML), Internet of Things (IoT), Blockchain, Big Data, Robotics, 3-D printing, Quantum Computing and more are transforming today’s enterprise setup from the very core.

With research, breakthroughs are taking place each day and these technologies are providing never-heard ways to the enterprises to innovate and serve their customers in a better way. But that’s only possible, when the CXOs or key decision makers are abreast with the latest happenings. That’s the aim of Wire19. We share whatever’s latest in IT to benefit the driving forces in an organization at large and to streamline the knowledge flow in the industry.

Wire19 is a comprehensive information portal that promotes knowledge sharing and interaction between the industry members via news, informative articles, infographics, CXO’s interviews, industry events, reports and more.

Our team of IT experts and reporters keep a close watch on the latest trends and bring the most refined pieces of information to our ardent readers – service providers, industry veterans, key decision makers, IT executives and thought leaders.

Being an insider in the IT industry, we know what our readers are most interested in or should be more aware of. An IT magazine that promotes thought leadership, Wire19 can also benefit the interested industry members by helping them transform their knowledge into business value.
